A written statement of justification for granting the variance. Please respond to each criterion.

Before any variance can be granted, the examiner shall make findings of fact setting forth and showing that the following circumstances exist:

- The proposed variance will not amount to a rezone nor authorize any use not allowed in the district;
- Special conditions and circumstances exist which are peculiar to the land such as size, shape, topography or location, not applicable to other land in the same district and that literal interpretation of the provisions of this title would deprive the property owner of rights commonly enjoyed by other properties similarly situated in the same district under the terms of this title;
- The special conditions and circumstances do not result from the actions of the applicant;
- Granting of the variance requested will not confer a special privilege that is denied other lands in the same district;
- The granting of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in the vicinity and zone in which the subject property is situated;
- The hearing examiner shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land.
